About

ICEG-2006 is the fourth event in series. It aims to provide a forum for discussing research findings, strategies, policies, and technologies in the field of e-governance.

For whom?

A significant milestone in the e-governance arena, the conference promises to be an invigorating confluence of the best brains from the academia and the industry. Scientists, faculty, and students from prestigious universities across the globe have expressed a keen desire to be part of this mammoth event. Assured industry participation and most importantly, key government officers and NGO/ community volunteers have guaranteed strong representation of the user community.

Who Designs the Conference Program?

An International Advisory Committee (IAC), comprising international experts and representatives from the government as well as the industry, will guide the development of the conference program. A Program Committee (PC) will supplement the activities of IAC including identification of moderators and speakers, as well as the agenda for the conferences.

Key Elements

The three-day conference offers attendees a holistic educational experience, with following opportunities

- Three plenary sessions with nine keynote presentations by experts
- Six half-day Industry sessions & Tutorials
- Thirty thought-provoking sessions running along five tracks
- A Best Paper award for each track
- A three-day exposition featuring over 100 exhibitors focused on technologies demonstrating success stories
- Briefings by innovators in e-governance

Call for Papers

Deadline: 15 July 2006

Authors are invited to submit original and unpublished papers, nominating a theme-related track or designating the paper as non-theme related ("Other"). Accepted papers will appear in the conference proceedings provided that at least one author registers for and attends the conference. High quality papers will be nominated for the Best Paper award. Better papers may be selected for publication in suitable journals. The conference program will be organized into submission topics but not limited to:

- leaders/lawmakers for E-government
- E-governance & Policy
- Reforms & Acts
- Reengineering Government
- Technology in Government
- Open source platform for sustainability
- E-democracy and Citizen empowerment
- ICT & Society
- Inter-governmental issues
- Best Practices in E-government
- Crisis in Human Capital
- Competitiveness
- Assessment of Government Portals & Ranking
- E-government Adoption and diffusion
- E-government: Economics & Development
- Public Private Partnerships
- Lessons from e-business corporations
- E-government applications (G-G, G-C, G-B, G-E etc.)
- Cultural, social and political issues in e-government

Special sessions

- Open Standards for sustainable E-gov
- E-government Standards & Architecture
- Data mining in Government
- Privacy, Security & Homeland defense in E-government

Call for Industry sessions & Tutorials (Deadline: 15 July 2006)
